For People Seeking Ultimate Personal Power

OCTOBER 2007: Your DNA of Personality Assessment

Would you like to find out what motivates YOU?

Everyone has their own personality and if you're serious about wanting to tap into the DNA of your own personality, here's how to find out:

- Why you do what you do
- Why you are who you are
- Why you react the way you do
- How you relate to the world

Did you ever wonder why people behave so differently?

Some people are passive while others assertive. Some individuals like to plan in advance while others work from impulse? Some are more creative while others more analytical. Why do some people concentrate on the details of life while others only see the big picture?

You operate from your own personal perspective - and your PRINT is your own personal view of the world.

In just 30 minutes, from the comfort of your own home, you can gain *incredible insights* into why you do what you do. You'll find out how best to be heard and received by others.

The real power of the PRINT SURVEY comes about when you *apply* The PRINT Strategies to unleash the full human potential that lies within YOU.

You will learn how to achieve higher levels of:

- Performance
- Productivity
- Success

Here's how PRINT Strategies will impact your life:

- You'll expand your own personal growth and development
- Improve your relationships - both personal and work related
- Strengthen your abilities as a team player
- Develop and enhance your natural abilities and passions

If you're serious about wanting to tap into the DNA of your personality then the PRINT SURVEY Assessment is the simple solution for you.

Join hundreds of others who have found that the PRINT Strategies are the evolutionary blueprint to unleashing your full potential in *every facet of your life!*

Take advantage of this assessment that is based on an ancient model. There are nine Major Prints and everyone fits one of them. Beyond that is the intuitive magnetism of Prints. Many people are drawn to them because they resonate with them at a personal level that involves a kind of knowing ... a personal path.

Every PRINT has its own spectrum of behavior: positives (Best Self) and negatives (Shadow)

Studies have shown that increasing Best Self behaviors will *result in better performance*. By learning to tune into other people's PRINTS, as a member of a team, in personal relationships, with other executives or managers - you can connect with them from their perspective and be able to communicate with them in a way that might not have been possible before.

PRINT ASSESSMENTS allow us to gain incredible insight into why others do what they do

Important Print Facts

- Every PRINT has its unique strengths and weaknesses
- Your PRINT explains your view of the world - how you look at things and how you respond to people and situations. Each PRINT has an Unconscious Motivator that drives the beliefs, thoughts, emotions and actions of that PRINT. NO PRINT is better than any other PRINT. They are just different
- Each PRINT has strengths (called Best Self) and potential weaknesses (called Shadow) that are unique to that PRINT
- **A person's natural state is Best Self.** But sometimes the Shadow replaces Best Self as a person's automatic default, particularly under stress.
